Farmer Killed at Queenstown

Hurled from a 30-foot windmill tower on Sunday afternoon when the wind swung the long fans, Percival George Fultham Hunter, a farmer living eight miles west of Queenstown suffered severe concussion of the brain, and died about an hour later.

Mr. Hunter was assisting a neighbor, L. Eamorr, repair his windmill when the fatal accident occurred. He was an unmarried man, 57 years of age, and had been a resident of the district for many years.

He had no relatives in Canada, but is survived by a sister, Miss Winnifred May Hunter, of Weston-Super-Mare, England.

Technical School Has Good Year

The Provincial "Tech" at Calgary enjoyed a successful season, a total of 781 students being registered the past term. In addition 617 unemployed attended 23 classes offered, holding given instruction by 36 instructors acting without salary. The school is now conducting a course in aeronautics, the only course of its kind given in Canada. It is planned during the coming term to design and build a complete aeroplane.

Mr. C. Kiser returned to Olds on Monday after spending a few days in Arrowwood.

Church of the Brethren Notes

The Leadership Training Class, studying Training in Worship and the Devotional Life, met and organized last evening. The next session will be tomorrow (Friday) evening. Anyone desiring to do so may begin at that time.

The Pastor intends to be in charge of the Sunday services. There is to be an informal meeting of all who are interested at 3 o'clock Sunday afternoon to discuss plans and goals.

The W.A. of the United Church will hold a sale of Home Cooking in Mr. A. A. Clifgard's Store on Saturday, August 18th, from 3 to 9 p.m. Anyone desiring to do so, may leave their order with Mrs. E. J. Liesemer.

Shouldice News

Miss Clara Service, of Arrowwood, returned home after a short visit with her aunt, Mrs. Yuill.

Miss Muriel Hadden, of Okotoks, is the guest of Mr. and Mrs. J. McRae.

Mr. and Mrs. Caughy, of Husar, were renewing acquaintances among their many friends on Wednesday, Aug. 8.

Mr. and Mrs. H. Griffith, of Calgary, when returning from Winnipeg, were the guests of Mrs. Weberg on August 5, 6 and 7. They report that the crops and grasshoppers are much worse there than here.

Miss Isabel Griffith, of Calgary, returned to her home on August 7, after spending three weeks with Mrs. Weberg.

Mr. and Mrs. Sharpe have returned from a ten-day visit (Continued on page 4)

Queenstown Items

Last Sunday, Mr. Geo. Hunt, a respected farmer fell from a windmill tower and was killed almost instantly.

Mr. and Mrs. Dawson of Long Beach, Calif.; Mr. and Mrs. Weiss and sons, former residents of the Little Bow District, were recent guests of the O'Learys.

Mrs. White is sojourning in Calgary.

Mrs. Watson and daughter Betty Lou are visitors at Mrs. McCabe's.

Miss Dot Mallett is home from High River.

Our Station Agent is away on his holidays.

A number of the ladies of the Institute report a good conference at Shouldice.

The Women's Institute celebrated their 21st birthday with a tea. The hall was prettily decorated with flowers sent by the Shouldice Institute.

Among those present were 13 of the 21 charter members. A pleasing program was rendered by members of our members families. Ruth Phillips and Marjory McLaughlin gave a delightful duet on the violin and piano. Mileen Brinker gave a piano solo. Mrs. Lund gave a reading "Silly Questions." Mrs. Campbell, a charter member of Vulcan, and Mrs. Jones gave a skit "King Henry, VIII and One of Anne." The tea was presided by Mrs. Durstan, first vice-president, and Mrs. Mallett, of the Social Committee, while Mesdames Macomber, Taggart and Lund acted as servers. The guests were received by the President, Mrs. McCabe.

Among the guests who came from a distance was Mrs. Greve, an institute member and provincial president of the Council of Women, who brought greetings from Calgary, and gave a brief talk. Also Mrs. Clarke, Constituency Convener of Calgary, made a few remarks. Mrs. Robinson, the first secretary spoke on the formation.

The chartered members were all called for "I Remember," while Mrs. Durstan read a paper on the History of the Institute. The Limerick Contest was won by Mesdames Kingsmith, Macomber, Moger and Laing.

The gathering broke up by singing "Old Lang Syne" (Continued on page 4)

Agricultural School to Re-open

Announcement is made by Hon. F. S. Girdale, minister of agriculture, that the school of agriculture at Vermilion will be re-opened this fall, provided the registration of students is sufficient to warrant it. The school at Olds will continue to operate.

Arrowwood Notes

Miss Edith Beagle is spending a few days with her sister, Miss Ruth Beagle at Queenstown.

The next time you order flour try Vulcan Flour—you get it at Clifgard's.

Master Laurie Mackie is spending a week visiting in Arrowwood.

Miss Irene Hesketh is visiting with friends in Calgary this week.

Mrs. Rainville left on Sunday for Gleichen for a few days visit with friends.

Mr. and Mrs. J. Mackie were visitors over the week-end with relatives at Didsbury.

Mr. and Mrs. D. J. Beagle and Mrs. John Mackie, Jr. visited Miss Ruth Beagle of Queenstown on Saturday.

Mr. R. Westwood, who has been in the Olds District since last fall is renewing acquaintances in Arrowwood.

Word has been received from Mrs. P. H. Coleman that she will be in Arrowwood on Tuesday, Sept. 4th, when she will continue her music classes.

Mrs. R. H. Bishop and son Ronnie, who have been visiting with relatives in Edmonton are expected home this week-end.

The Imperial Oil sign which was erected in front of the Arrowwood Garage last Saturday has attracted a great deal of attention.

Garfield Anderson had the misfortune last Thursday afternoon to break his right arm just above the wrist.

Mrs. R. E. Hales returned on Sunday from Red Deer where she had been visiting with relatives. Vaughan Allan also returned with her.

Mrs. John Mackie and children of Carleton Place were visiting at the home of her parents Mr. and Mrs. D. J. Beagle, and other relatives over the week-end.

See the fight pictures at the Arrowwood Theatre Thursday night Aug. 16. Jimmy McEwen in the world's welterweight champion vs. Barney Ross, world's lightweight champion. Also a hilarious romance "Ever Since Eve" and a good comedy. Children 12 and under 15c, 13 and over 25c, adults 35c.

Miss Edna Beagle spent Monday at the home of her sister Mrs. John Mackie at Carleton Place.

Mr. Ingraham has just finished re-decorating the interior of the Bank of Nova Scotia.

Mr. House, Sr., father of House Bros, met with an accident last Saturday morning when he had a finger badly crushed. He was attended by Dr. E. J. Liesemer.

Mr. Jas. Smith and Mr. Neilson of Standard were visitors in Arrowwood on Tuesday evening. Mr. Smith was a former resident of this district and is now in charge of an elevator at Standard.

Miss H. Hansen met with rather a serious accident on Friday evening when she fell with a saucer, cutting her hand. She was rushed to town where she was attended by Dr. E. J. Liesemer.

Mr. and Mrs. Wm. Hill, who have been visiting at Long Beach, Calif., arrived in Arrowwood Tuesday evening and are staying at the home of their daughter, Mrs. D.R.M. Shouldice, and will remain here till after harvest.

Mr. Wegh, owner of the Vulcan Flour Mill, has made many up-to-date improvements to his establishment there and would welcome any interested visitors to see the renovation. The Vulcan mill is now one of the most modern in Southern Alberta and would appreciate your patronage. Mr. Wegh made arrangements with Mr. Clifgard to represent the Vulcan Flour Mill and on Wednesday he received a shipment of this flour.

The W.A. of the United Church met at the home of Mrs. A. H. Tharle on August 9th. Vice-President, Mrs. Shouldice, occupied the chair. The Devotional period was taken by Mrs. Gilbert, who read 1 Cor. 13. The minutes of the previous meeting were read and adopted. It was decided to hold a sale of home cooking on Saturday, August 18th, from 5 to 9 p.m. in Mr. Clifgard's store. Anyone desiring to do so, may leave their order with Mrs. E. J. Liesemer.

TRAIN SCHEDULE AT GLEICHEN

East bound, Wed, Fri., 1.30 pm

Farmers-- Save Money on Your Flour

When Farmers are bringing their wheat to the mill is the time when they can buy their supply of Flour cheapest. Why pay freight on wheat going out and freight on flour coming in, as well as commissions, when one trip to the Vulcan Flour Mill will save this added cost? Our Flour is guaranteed to give satisfaction. We improve our mill every year in order to produce Flour that will satisfy. We have just spent \$500 for a small machine to improve the quality of our Flour. Come in and be convinced that Vulcan Flour is now whiter and better than ever. Try a sack—it costs less.

Be sure to call on the Vulcan Flour Mill before you purchase your Flour Supply. We would like to prove to you the saving you would make by dealing here.

Remember We Store Your Flour
at Our Mill Free of Charge

We Have Arranged With Mr. A. A. Clifgard to Represent Us in Arrowwood and he has a fresh stock of Our Flour on Hand Now

The Vulcan Flour Mill

Notice to Threshermen LICENSES NOW DUE

All operators of Threshing Rigs and Combines Are Required to Register each season with the Department of Agriculture at Edmonton, and obtain a License to operate, the Fee for which is **One Dollar**. This Fee is Now Due and Payable for the Season of 1934.

All Those Operating Threshing Rigs or Combines Without Such Licenses are Liable to prosecution.
Applications for Licenses should be made at once to municipal Secretaries or to

To Stimulate Objective Thinking

The topography condition in which the world finds itself to-day, naturally leads to serious thought on the part of everyone. Why should there be so much penury and want in the midst of a surplus of commodities. What are the real causes of stagnation of trade the world over. One hears that the capitalistic system is doomed, and out of the present chaotic conditions a new order is bound to be established. Many theories are being continually advanced, designed to produce a new Utopia. The history of the world establishes the fact that all reforms necessarily come slowly. There can be no rapid realizations of many obviously needed changes in our social system. But the world does not stand still, a forward and not a backward movement is inevitable. The encouragement and not the suppression of constructive thinking and expression of thought would be of material assistance. In the annual address of Principal Pyke of Queen's University, reference was made to the stimulation of thought by means of discussions in the class rooms. He is reported in part as follows:

"In our academic seclusion we sometimes catch from a hater world the echoes of an accusation that the Universities of Canada are becoming 'nurseries of anarchy and revolution'. So far as such charges have any basis except hysteria, they may serve to encourage us, for they seem to indicate that students are in some measure acquiring the art of looking at both sides of disputed questions, an art in which it is our duty to encourage them. The ideal of suppressing enquiry and free speech, which has for the moment established a tragic dominance in many parts of the world, is nowhere more absurd than in a University, where men and women gather to exercise their faculties of curiosity and logic. Those faculties in turn are necessary to him; their utterances are often crudely dogmatic. But to stifle thought and utterance would be to stifle the University. As Froben said, 'Whoever is right, the persecutor must be wrong.'"

"If we are to stimulate in our pupils objective thinking, we must be equally free in speech about our own. The University is not a place where propaganda is no part of a teacher's proper function. He is not concerned to produce opinion, a temporary state of conviction which can be quickly changed by counter-propaganda. His aim is to stimulate the growth of intelligence, the power of detached judgment. To that end he may exercise in the class-room every art of asphyxiation, but if he blinks his way into the outer world, where opinions clash unanchored both from fact and reason, it behoves him to remember what astonishing weight that opinion of a professional pronouncement. The dignity of the University stands behind him on the platform, sternly demanding sobriety. A University teacher should certainly be clever; he needs to be wise; and of the factors of wisdom not the least are self-restraint and kindness and patience."

Appointment Commission

To Inquire Into Claims Of Alberta For Further Resources Compensation

Hon. Andrew K. Dymally, Judge of the Manitoba court of the bench, Hon. Thomas M. Tweddle, Judge of the supreme court of Alberta, and George C. Macdonald, Montreal, have been constituted a commission to inquire into claims of the province of Alberta for further compensation with respect to the administration and control of its natural resources. Announcement of the appointment was officially published recently. Mr. Justice Dymally is chairman. With the exception of Mr. Justice Tweddle the commission is the same as that which investigated similar claims on the part of the province recently. On the completion of the Alberta report the commission will report to the federal government, and recommendations on behalf of both provinces.

Chinese Form Of Torture

Used Skin Of Rhinoceros To Crush Political Prisoners

The ancient Chinese had some strange uses for the rhinoceros, according to a report by an American archaeologist. One form of torture was to wrap a political prisoner in the hide of a freshly killed rhinoceros. As the hide dried it contracted and slowly crushed the victim. Another use the ancient Chinese had for rhinoceros skins was for covering funeral cars. Also the armour of the bronze-age warriors was made of it.

Once upon a time the good died young. As they gradually became a virtually obsolete virtue, the careless have been dying young, instead. Cigarettes in their modern form were introduced into America and Europe about 60 years ago.

Change of Climate, Diet, Water Often the Cause of Diarrhoea

If you are suddenly attacked with Diarrhoea, Dysentery, Colic in the stomach, Summer Complaint or any Looseness of the Bowels, do not waste valuable time, but get a bottle of Dr. Fowler's Extract of Wild Strawberry and see how quickly it will relieve you. This bowel complaint remedy has been on the market for the past 88 years. Proof enough that you are not experimenting with some new and untried medicine. Do not accept a substitute. Get "Dr. Fowler's" when you are for it, and be on the safe side. Put up only by The T. Minnow Co., Ltd., Toronto, Ont.

Gold Pouring Into London

Great Increase In Foreign Deposits Of Precious Metal

The golden tide, unexampled in the history of the world's monetary movements, continues to pour into London.

It began a year ago with a gold influx at the rate of \$20,000,000 weekly, then it increased early this year to \$42,000,000 weekly, and now it averages 45 million weekly and shows no indication of declining. As soon as gold arrives in England from South Africa, Canada and other producing countries, it is bought by French, German, Dutch and American buyers, nervous about the financial state of affairs in their own countries, and stored away uselessly in the vaults of London banks, where they know it cannot be touched. Already in the square mile that constitutes the City of London, more precious metal has accumulated than ever King Solomon's legendary mines could have produced. The latest figures, covering a period of nine months, show gold importations valued at \$1,000,000,000. Exports reached less than \$500,000,000. Altogether, at the moment one billion and a quarter of foreign gold is stored in the city banks—a figure which exceeds any previous records in peace time.

Bankers do not wait this gold; they cannot use it either to provide funds for industry or to pay Britain's unemployed. Moreover, any fresh financial upheaval in Europe might cause its flight to London, and thus cause a disastrous effect on international stability. Its usefulness is further emphasized by the fact that, although London's wealth is bursting with it, the official government figures reveal that the British people's purchasing power in the way of wages and salaries has been decreased through an economy campaign by \$310,000,000 since the gold crisis of 1933.

Solo Climber Lost Life

Former British Army Captain Attempted Ascent Of Mount Everest

A solo climb of Mount Everest, the limit of human daring, it was the British thought of sacrifice and which the gods invariably punished. The penalty has been meted out to Maurice Wilson, the former British army captain who set out to walk up a mountain which organized expeditions have failed to conquer. It was his theory that these Everest attempts had failed because of overvaluation, in which he may have been right. Mr. Wilson did not count on making use of ropes and tracks left by the Rutledge expedition last year, so that in the strictest sense he was something more than a one-man expedition. But when all is said and done, he was a solo climber. His school of mountaineering which has sprung up since the war and which has transformed a sport into a profitable business, the Rutledge expedition has performed feats which the older Alpinists would not dream of attempting, but they have done so at enormous cost of life.—New York Times.

To Salvage Treasure

Nineteen Gallons Sunk In 1702 To Be Reached For Gold

The 30 gallons of the Franco-Spanish fleet sunk in the Bay of Vigo in September, 1702, by the combined British and Dutch fleets under Sir George Rooke and the Duke of Ormonde, will be searched for gold this summer, the Madrid newspaper El Debate reported.

Several previous attempts to salvage the treasure brought by the fleet from the West Indies were fruitless.

Glass Is Latest Vogue

Glass and steel are the vogue for modern homes in England this season. Glass what-nots and chromomuted easy chairs are among the most popular pieces. Glass beds are coming into style. Steel drawing rooms and glass bedrooms are considered the latest in human habitation.

The principal European countries, notably France, Italy, and Germany, have stringently controlled the imports of duty products during the past few years by tariff, quotas, and other means. This has resulted in a steady increase in the quantities of raw material and goods exported to the United Kingdom.

Canadian production of timothy seed, less than one half of the requirements, as indicated by importation statistics, while substantial export surpluses of alfalfa, sweet clover, and Canada blue grass are usually produced yearly.

PLUG SMOKING TOBACCO

For real economy and enjoyment, smoke plug tobacco. The tobacco stays fresher, because you cut each pipeful as you need it... coarse or flaky, to suit yourself. And, it lasts longer in your pipe!

Building More Ships

Britain Still Maintaining Her Rule Of The Sea

What may be taken as a sign of a world trend toward prosperity is the fact that on June 30 last, compared with the same date last year, there was a 70 per cent. increase in the tonnage of the merchant ships under construction in the yards of all nations, except Russia, about which Lloyd's had no official information. Since June, 1933, there has been increased activity in shipbuilding and compared with the report on March 31, it is still on the up-grade though the argument of new tonnage was only 1 per cent.

Great Britain and Ireland, which are taken together, still lead the way. The only notable gain over the last quarter was that shown in their reports. They are building five of the ships of 20,000 tons or more, the being under construction in France. Two of the large British ships were started last quarter.

The British yards are now building 48.3 per cent. of all merchant tonnage, namely, 587,142 tons out of the 1,218,640 under construction. The British increase was 105,702 tons over last quarter. To appreciate Britain's position we have only to compare it with Japan's, which is next in line. Japan's total tonnage on June 30 was 137,280, less than a fourth of Britain's total, and Japan's increase was 14,000 tons, less than a seventh Britain's increase.

France comes next in line, then Germany, Denmark, Holland, Sweden, Italy, the United States and Spain, in the order named. The only two nations which showed less shipbuilding activity were Italy and Spain. The United States moved up from tenth to ninth place, though its increase was only 247 tons. It is evident that British merchant shipping is maintaining its rule of the sea.

A Million In Time

World War Lasted About Two Million Minutes

A way of realizing the meaning of a million is to think of what it means in time. Few people realize that there are less than a million days in the whole Christian Era; in fact, if we count back a million days from 1933, we come to a date well before the founding of Rome, while a million hours would take us back to the Battle of Trafalgar. The War lasted about two million minutes, and taking the total casualties as ten millions, this gives an average of five casualties per minute throughout the period of hostilities.

The movement of sheep and lambs in Canada from farms to livestock yards and packers showed a substantial increase during 1933 and was in time. Few people realize that there are less than a million days in the whole Christian Era; in fact, if we count back a million days from 1933, we come to a date well before the founding of Rome, while a million hours would take us back to the Battle of Trafalgar. The War lasted about two million minutes, and taking the total casualties as ten millions, this gives an average of five casualties per minute throughout the period of hostilities.

In 1933 a total of 308,300 acres were sown to buckwheat in Canada and production amounted to 8,483,000 bushels.

For STIFFNESS

Minard's is the only product which will relieve you of stiffness and pain in your back, neck, shoulders, and joints. You'll soon find it out.

MINARD'S "KING OF PAIN" LINIMENT

King George's Silver Jubilee

Celebration Will Be Held In May Of Next Year

The Irish Free State has declined to send a representative to participate in next year's celebration of the silver jubilee of King George's accession, it was revealed in the House of Commons.

The revelation was made by Acting Premier Stanley Baldwin, who announced the celebration would be held May 6 to 18 and the 26th anniversary of the accession would be observed as a public holiday throughout the nation.

Mr. Baldwin said prime ministers of Canada, Australia, New Zealand and South Africa had welcomed with warmth the suggestion they take part in the ceremonies at London, although it was impossible to tell at the moment if they would be able to present owing to possibility of political developments keeping them at home.

The acting-premier said also the government hoped to hold informal conversations with the premier regarding important empire questions, taking advantage of their presence in London.

The Irish refusal of the invitation was decided by Premier Eamon de Valera and his executive on the grounds that attendance was not possible under present conditions, a statement presumed to mean the Free State did not wish to take part in view of differences between it and the United Kingdom over land annuities and the consequent economic "war".

Feature of the celebration will be a thanksgiving service which their Majesties will attend at St. Paul's cathedral and similar services in other parts of the country.

Home For Quintuplets

New Home To Be Built In Little Northern Ontario Town

Sometime between now and when the early winter snow begins to fly in this northern Ontario town, the Dionne quintuplets, their five brothers and sisters and their parents will be housed in a comfortable, modern residence.

Through the aid of the Canadian Red Cross, and with assistance also from officials of the northern Ontario relief commission, it was learned recently, plans will be far enough advanced in a few days to allow architect, contractor and workmen to begin their tasks in earnest.

Has Given Good Service

Denver Man Still Driving Roadster Bought In 1910

C. C. Dill, a Denver roadster contractor, estimates that he has put 400,000 miles out of his 1908 roadster. He bought the machine in 1910, and it has been driven over 2,000 miles. In 1915 the speedometer gave up and stopped at 240,000 miles. Since then he has been driving it steadily, from coast to coast and from the Great Lakes to Alabama. Not once has he been involved in an accident or brought its owner into difficulties with the law.

The Christian Science folk built a new bathing house in Boston during the years of depression, paid \$40,000 for it in cash and never held a garden party or a church supper.

When a lion's tail becomes motionless, it is a signal that he is angry and about to attack, according to trainers.

Draught-proof curtains, brought together by a zipper tassel, have appeared in London.

Red raspberries are the hardest of the brambles.

Secret Method Revealed

How Scotland Yard Determines Age Of Finger Prints

Scotland Yard's secret method of telling the age of finger prints was revealed in Sessions Court in London during the trial recently of John C. O'Connor, charged with breaking into the Lady Margaret Day Nursery. Evidence against him was a thumb-print found on a clock, but O'Connor said he had only handled the timepiece in 1932. Detective-Sergeant Jack Livings, of New Scotland Yard, said he had no doubt the fingerprint was that of O'Connor. He added: "The powder we apply to latent impressions to bring them out will stick to the ridges of a new print, but an old one is dry and the powder will not adhere to it. A fresh print can easily be removed by a duster, but a stale one can only be removed by a damp cloth."

Education In Russia

Stalin Orders Secondary Schools To Raise Standards Again

Stalin's latest decree that the secondary schools of the Soviet Union must, in some degree at least, return to the standards and methods of the rest of Europe adds another paragraph to a new and more hopeful chapter in an old and rather sorry story. The story is that of the failure of an experiment, which, like so many other things in modern Russia, looked very handsome on paper, but which has proved to be quite beyond realization in actual practice.—Glasgow Herald.

Always Good Neighbors

Canada And United States Like To Exchange Courtesies

That was a friendly and fine gesture when the Americans brought back the mace which they took away from the old Upper Canada parliament back in 1812. To many, it may seem a little thing, but it is just the sort of little thing that makes for friendliness and good feeling between two countries. It is the sort of thing, indeed, which, occurring very now and then, has made Canada and the United States almost model neighbors.—Ottawa Journal.

Both the production and consumption of oats in Canada have followed a downward trend since 1920.

"It Helps Me!"

That's what 98 out of 100 women say after taking this medicine. It gives quivering muscles strength before and after childbirth. It gives new life to tired women.

NORMAN G. CARY,
Editor and Publisher

THE SEASON OF SUNBURN

During August sunburn takes precedence over the weather as the principal topic of conversation. This is the season when one-half the population is compelled to listen to the other half bragging about tan or complaining about blistered shoulders and arms.

Sunbaths have effected almost miraculous cures in cases of tuberculosis of the bone and glandular diseases and a good coat of tan or case of sunburn adds credence to the vacation yarn, but there is also grave danger from sunburn. Inflammation, fever infection and even death may follow injudicious exposure to the sun, the harm of which is no different from that of fire or steam.

Good rules for bathers to follow are to keep out of the summer sun between the hours of 10 a.m. and 3 p.m., except for brief periods, to cultivate tan gradually, and not seek from a week-end trip to return home with a certificate of tan to a season at the lake-side.

Just now when the practice of exposing children to the sun for health reasons has brought about a special car for their sunning, the warning is in place—that the periods of exposure be brief, and above all else, the head should be covered, and the eyes protected by glasses.

Sun baths without burns, but with all the tan that the individual's complexion entitles them to, is the ideal to be sought, and in the attainment of this all the beneficial effects of the sun may be gained without the malices, which wait upon burns.

DO NOT FEAR CRITICISM

A typical case. Some one—At any semi-public meeting for taking action on a proposed matter. Discussion and suggestions are asked for. Hardly anyone says a word. Motion for action or decision on the subject goes through unopposed. Some two Outside of meeting place on the streets and in the back rooms—silent ones become talkative and events and decisions of meeting torn to pieces.

We are not concerned with the above class of men—they will always be in evidence. We just want to point out to the fellow who is full of action that he who fears criticism is hopeless. Only those who do things are criticized. The idler is lost sight of in the march of events, but the doer is watched and criticized. To hesitate for fear of criticism is cowardly; advocate it, expound it, and, if need be, fight for it. Critics always have been, and always will be, but to the strong-minded they

are a help rather than a hindrance. As a horse spurts forward when prodded with the spur, so the doer forge ahead under the lash of criticism. Take your part in life's stake and play your part to the end; stand for that which is good; be a doer, not a drone; look the world in the face and let the critics criticize.

Did you ever stop to think that if the man who wrote this didn't stop to think you wouldn't stop to read it. If a man who writes an advertisement doesn't put his mind to it he won't get any attention. If you don't take time to think what the public want in your line and study their needs someone else will serve them and then you won't get a chance. Other people are something like you; self and won't take what they don't want. There are a great many things in our modern world and you've got to advertise to get public attention and you must make your message as interesting or more interesting than the other messages which are floating through the air and spread out on printed pages.

Queenstown Notes

(Continued from page 1)

The U.F.W.A. of Queenstown met at the home of Mrs. W. Durstau, Wed. Aug. 8. There was a good attendance. The report on the rally held at the Arrowwood Bridge, July 25, 26 and 27, was wonderful. Mrs. Durstau and Mrs. S. Williams acted as hostesses. The next meeting will be at the home of Mrs. J. Robinson on Sept. 12.

The swimming pool is sure very popular these hot days.

Mrs. Alf Lawther, Mrs. Lund and daughter, Mrs. Art Soli and daughters and Mrs. Chris Ferguson and daughters are home again after spending a few days camping at the river.

Mrs. Miller has returned home again after being on their farm West of Innisfail all summer.

Shouldice Notes

(Continued from page 1)

with their son in Saskatchewan.

Mr. and Mrs. Dawson, of Calgary, were the guests of Mr and Mrs. Van Arsdall over the week-end.

While Mr. and Mrs. J. Waugh of Lacombe, were the guests of Mr. and Mrs. Van Arsdall last week-end, their many friends gave them a charivari Saturday night, which was enjoyed by all. Here's wishing them many happy years to come.

Mr. Roy Shouldice finished cutting and stoking on Saturday, August 11th.

Mr. Norton delivered the first new grain of the season to the Shouldice Pool Elevator. It is reported that the sample is not as good as usual.

U. S. Market for Alberta Coal

The recent action of the U.S. government in deciding to admit Canadian coal without duty, will, it is believed, bring new business to Alberta coal mines, for both domestic and steam coal. The Alberta government trade commissioner has recently been advised of the new arrangement.

Here and There

S. S. Empress of Japan arrived at Victoria recently with one of the largest passenger lists in the past three years. There was a total of 877 from the Orient and Honolulu. The liner was also heavily loaded for the westbound trip from Vancouver and Victoria.

Speaking at Toronto recently before members of the International Building Owners and Managers Association, E. W. Beatty, K.C., chairman and president of the Canadian Pacific Railway, doubted the wisdom of "too elaborate planning" in national economies. Mr. Beatty did not think the present system of society was worse except in the "way in which it is applied."

The Canadian Pacific Railway will celebrate the fiftieth anniversary of the completion of its transcontinental line next year. It was November 7, 1884 that Donald A. Smith, later Lord Strathcona, drove the last spike at Craigellachie joining east to west and Atlantic to Pacific.

Hon. Charles A. Dunning, vice-president and general manager of the Seagrave Club, Montreal, Quebec, has been elected a director of the Bank of Montreal. The former Federal Minister of Finance is also president of the Ontario Equitable Life Insurance Company.

You Can't Beat

A V-8 Performance

Let us show you how good the new FORD is. Claims are a waste of breath. Tests alone tell the facts. Hill for hill; mile for mile (measured mile), and hour for hour, we challenge any car under \$4,000 to beat Ford V-8 Performance and economy. \$4,000 is the next lowest priced V-8. Get the facts before you buy.

Power for Every Need

Economy in Every Department

A salesman, after much persuasion, managed to sell a tractor to a Negro farmer. It was delivered, and shortly after the salesman called for the money. "Well, Rastus," he began, "can you pay me for the tractor now?"

"Pay yo' for de tractah?" asked Rastus, in surprise. "No sah, why yo' said yo' self dat in three weeks the tractah would pay fo' itself."
